

• ONE SIZE FITS ALL • RECYCLABLE PRIVACY CURTAINS

<< ONE SIZE FITS ALL

Our new Innosnap design allows you to order and stock a one size fits all cubicle curtain. The panels and mesh snap together. No special tracks are required.

<< CUSTOMIZES TO ANY CEILING HEIGHT

Each Innosnap panel is 60" wide and the mesh comes in a variety of drop-length to accommodate any ceiling height. We will help you with these measurements.

<< SAVES TIME & MONEY

The Innosnap curtain panels can quickly and easily be changed as a regular scheduled change out or after the discharge of a contact precaution patient. These panels can then be recycled.

<< INNOVATIVE & COST EFFECTIVE

Innosnap curtains are an innovative solution and cost effective way of providing complete privacy to each patient while giving your facility an exceptionally clean feel.

"LMA'S disposable curtains give your facility a clean and professional look like no other! As a company, LMA is very responsive to our needs and has been a great company to work with."

-LoAnn Vande Leest

INNOVATIVE.
COST EFFECTIVE.
RECYCLABLE.

STANDARD
COLORS &
PATTERNS

WE ARE PASSIONATE ABOUT SAVING HOSPITALS MONEY!

We will work with your staff to provide your hospital with a one size curtain solution. This eliminates the need for multiple sizes of cubicle curtains and the labor time required to track and change each curtain by your EVS/housekeeping staff.

CUSTOM
PATTERNS

Our cost effective system also allows you to change out one panel in the touch zone quickly between patients to refresh each curtain at a minimal cost.

Our goal is to reduce room turnover time while ensuring a clean and safe environment for each patient!

IMMEDIATE AVAILABILITY FOR STANDARD COLORS & PATTERNS

CUSTOM COLORS AND PATTERNS AVAILABLE WITH A 2-3 MONTH LEAD TIME

"I have been using LMA Medical Materials Recyclable Cubical curtains for almost 8 years and due to their outstanding support, customer service and quality products, there is no reason look anywhere else! They go the extra mile to have studies done based on hospital regulatory needs and always looking for new innovative ways their products can make it more efficient for the end user. Laura and Mark are also great Health-care partners in ways to help us reduce HAI's as well as support our green initiative."
